Dear Abrie

RE : POLE-TO-POLE

We would like to thank and congratulate you on introducing your innovative game called "Pole-to-Pole" to our school. It is by far the most popular game at the moment and the children are thoroughly enjoying the various challenges set to them.

The packaging is colourful, bright and exciting and definitely entices one to open the box. The game itself is well packaged, durable and of the highest quality. The instructions are easy to follow. You simply have to open the box and begin.

In today's society where everything is aimed at technology and isolated play, it is fantastic to once again be able to enjoy a family game that can take place both indoors and out.

I wish you best of luck with your new product and will quite happily promote it in our school.

Regards
JReid.
